1. (a) Saharsh Ltd. is engaged in manufacturing of electric home appliances. The company is in the process of finalizing its accounts for the year ended 31.3.2020 and needs your expert advice on the following issues in line with the provisions of AS 29:

(i) A case has been filed against the company in the consumer court and a notice for levy of a penalty of ₹ 20 lakhs has been received. The company has appointed a lawyer to defend the case for a fee of ₹ 2 lakhs. 50% of the fees has been paid and balance 50% will be paid after finalisation of the case. There are 75% chances that the penalty may not be levied.

(ii) The company had committed to supply a consignment worth ₹ 1 crore to one of its dealers by the year-end. As per the contract, if delivery is not made on time, a compensation of 15% is to be paid on the value of delayed/lost consignment. While the consignment was in transit, one of the trucks carrying goods worth ₹ 30 lakhs met with an accident. It was however covered by Insurance. According to the surveyor's report, the policy amount is collectable, subject to 10% deduction. Before closing the books of accounts, the company has received the information that the policy amount has been processed and the dealer has also claimed the compensation for the consignment of goods worth ₹ 30 lakhs which was in transit.

(b) Old Era Publication Publishes a popular monthly magazine on 15th of every month. The publication sells the advertising space on terms of 90% payable in advance and the balance 10% payable within 30 days of release of the publication. The space for March 2020 issue of the magazine was sold in the month of February, 2020. The magazine was published as per schedule on 15th of the month. The amount of ₹ 2,70,000 has been received upto 31st March, 2020 and ₹ 30,000 was received on 10th April, 2020 for advertisement published in the March issue of the publication.

MOCK TEST PAPER 1

INTERMEDIATE (NEW) : GROUP – II

PAPER – 5: ADVANCED ACCOUNTING

1. (a) (i) As per AS 29, an obligation is a present obligation if, based on the evidence available, its existence at the balance sheet date is considered probable, i.e., more likely than not.

Liability is a present obligation of the enterprise arising from past events, the settlement of which is expected to result in an outflow from the enterprise of resources embodying economic benefits.

In the given case, there are 75% chances that the penalty may not be levied. Accordingly, Saharsh Ltd. should not make the provision for penalty.

However, a provision should be made for remaining 50% fees of the lawyer in the financial statements of financial year 2019-2020.

(ii)

Loss due to accident	₹ 30,00,000
Insurance claim receivable by company = ₹ 30,00,000 x 90% =	₹ 27,00,000
Loss to be recognised in the books for 2019-2020	₹ 3,00,000
Insurance claim receivable to be recorded in the books	₹ 27,00,000

Compensation claim by dealer against company to be provided for in the books = ₹ 30,00,000 x 15% = ₹ 4,50,000

(b) Definition: As per AS 9 'Revenue Recognition', in a transaction involving the rendering of services, performance should be measured either under the completed service contract method or under the proportionate completion method, whichever relates the revenue to the work accomplished.

Analysis of given case: In the given case, income accrues when the related advertisement appears before public. The advertisement service would be considered as performed on the day the advertisement is appeared for public and hence revenue is recognized on that date. In this case, it is 15.03.2020, the date of publication of the magazine.

Accounting treatment for given situation: Hence, ₹ 3,00,000 (₹ 2,70,000 + ₹ 30,000) is recognized as income in March, 2020. The terms of payment are not relevant for considering the date on which revenue is to be recognized. ₹ 30,000 is treated as amount due from advertisers as on 31.03.2020 and ₹ 2,70,000 will be treated as payment received against the sale.

(c)

(i)	**Calculation of profit/ loss for the year ended 31st March, 2021**	*(₹ in crores)*
	Total estimated cost of construction (1,250 + 250 + 1,750)	3,250
	Less: Total contract price	(2,400)
	Total foreseeable loss to be recognized as expense	850

According to AS 7 (Revised 2002) "Construction Contracts", when it is probable that total contract costs will exceed total contract revenue, the expected loss should be recognized as an expense immediately.

(ii)	**Contract work-in-progress i.e. cost incurred to date**	*(₹ in crores)*
	Work certified	1,250
	Work not certified	250
		1,500

(iii) Proportion of total contract value recognised as revenue

Percentage of completion of contract to total estimated cost of construction

= (1,500 / 3,250)×100 = 46.15%

Revenue to be recognized till date = 46.15% of ₹ 2,400 crores = ₹ 1,107.60 crores.

(iv) Amount due from / to customers = Contract costs + Recognised profits – Recognised losses – (Progress payments received + Progress payments to be received)

= ₹ [1,500 + Nil – 850 – (1100 + 300)] crores

= ₹ [1,500 – 850 – 1,400] crores

Amount due to customers (shown as liability) = ₹ 750 crores.

(d) As per AS 26, costs incurred in creating a computer software product should be charged to research and development expense when incurred until technological feasibility/asset recognition criteria has been established for the product. Technological feasibility/asset recognition criteria have been established upon completion of detailed program design or working model.

In this case, ₹ 90,000 would be recorded as an expense (₹ 50,000 for completion of detailed program design and ₹ 40,000 for coding and testing to establish technological feasibility/asset recognition criteria).

Cost incurred from the point of technological feasibility/asset recognition criteria until the time when products costs are incurred are capitalized as software cost (63,000+ 18,000+ 19,500) = ₹ 1,00,500. Packing cost ₹ 16,500 should be recognized as expenses and charged to P & L A/c.

(b) Pooling of Interest Method

Under pooling of interests method, the assets, liabilities and reserves of the Transferor Company will be taken over by Transferee Company at existing carrying amounts unless any adjustment is required due to different accounting policies followed by these companies. As a result the difference between the amount recorded as share capital issued (plus any additional consideration in the form of cash or other assets) and the amount of share capital of Transferor Company should be adjusted in reserves.

Purchase Method

The assets and liabilities of the transferor company should be incorporated at their existing carrying amounts or the purchase consideration should be allocated to individual identifiable assets and liabilities on the basis of their fair values at the date of amalgamation. No reserves, other than statutory reserves, of the transferor company should be incorporated in the financial statements of transferee company.

$$\frac{\text{Net profit attributable to equity shareholders}}{\text{Weighted average number of equity shares outstanding during the year}}$$

$$= \frac{21{,}96{,}000}{4{,}57{,}500 \text{ Shares (as per working note)}} = ₹\ 4.80 \text{ per share}$$

Working Note:

Calculation of weighted average number of equity shares

As per AS 20 'Earnings Per Share', partly paid equity shares are treated as a fraction of equity share to the extent that they were entitled to participate in dividend relative to a fully paid equity share during the reporting period. Assuming that the partly paid shares are entitled to participate in the dividend to the extent of amount paid, weighted average number of shares will be calculated as follows:

Date	*No. of equity shares*	*Amount paid per share*	*Weighted average no. of equity shares*
	₹	₹	₹
1.4.2020	6,00,000	5	6,00,000 x 5/10 x 5/12 = 1,25,000
1.9.2020	5,40,000	10	5,40,000 x 7/12 = 3,15,000
1.9.2020	60,000	5	60,000 x 5/10 x 7/12 = 17,500
Total weighted average equity shares			4,57,500

(b) Events occurring after the balance sheet date are those significant events, both favourable and unfavourable, that occur between the balance sheet date and the date on which the financial statements are approved by the Board of Directors in the case of a company, and by the corresponding approving authority in the case of any other entity.

Assets and liabilities should be adjusted for events occurring after the balance sheet date that provide additional evidence to assist the estimation of amounts relating to conditions existing at the balance sheet date or that indicate that the fundamental accounting assumption of going concern is not appropriate.

In the given case, financial statements are approved by the approving authority on 30 June 2020.

On the basis of above principles, following will be the accounting treatment in the financial statements for the year ended at 31 March 2020:

(i) Since on 31 March 2020, Tee Ltd. was expecting a heavy decline in the demand of the stitching machine. Therefore, decline in the value during April, 2020 will be considered as an adjusting event. Hence, Tee Ltd. needs to adjust the amounts recognized in its financial statements w.r.t. net realisable value at the end of the reporting period. Accordingly, inventory should be written down to ₹ 4,000 per machine. Total value of inventory in the books will be 50 machines x ₹ 4,000 = ₹ 2,00,000.

(ii) A fire took place after the balance sheet date i.e. during 2020-2021 financial year. Hence, corresponding financials of 2019-2020 financial year should not be adjusted for loss occurred due to fire. However, in this circumstance, the going concern assumption will be evaluated. In case the going concern assumption is considered to be appropriate even after the occurrence of fire, no disclosure of the same is required in the financial statements. Otherwise, disclosure be given.

(iii) Since the transfer of risk and reward and sale was complete in the month of May, 2020 when conveyance and possession got complete, no revenue should be recognised with respect to it in the financial statements of 2019-2020. However, a disclosure for the same should be given by the entity.

(iv) Since the notice has been received after 31 March but before 30 June 2020 (approval date), the said grant shall be adjusted in the financial statements for financial year 2019-2020 because the violation of the conditions took place in the financial year 2019-2020 and the company must be aware of it.

OR

Following will be the treatment in the given cases:

(i) When sales price of ₹ 500 lakhs is equal to fair value, Monu Ltd. should immediately recognise the profit of ₹ 100 lakhs (i.e. 500 – 400) in its books.

(ii) When fair value of leased machinery is ₹ 450 lakhs & sales price is ₹ 380 lakhs, then loss of ₹ 20 lakhs (400 – 380) to be immediately recognised by Monu Ltd. in its books provided loss is not compensated by future lease payment.

(iii) When fair value is ₹ 400 lakhs & sales price is ₹ 500 lakhs then, profit of ₹ 100 lakhs is to be deferred and amortised over the lease period.

(iv) When fair value is ₹ 460 lakhs & sales price is ₹ 500 lakhs, profit of ₹ 60 lakhs (460-400) to be immediately recognised in its books and balance profit of ₹ 40 lakhs (500-460) is to be amortised/deferred over lease period.

(c) Calculation of Total Remuneration payable to Liquidator

		Amount in ₹
2% on Assets realized	25,00,000 x 2%	50,000
3% on payment made to Preferential creditors	75,000 x 3%	2,250
3% on payment made to Unsecured creditors (Refer W.N)		39,255
Total Remuneration payable to Liquidator		91,505

Working Note:

Liquidator's remuneration on payment to unsecured creditors =

Cash available for unsecured creditors after all payments including liquidation expenses, payment to secured creditors, preferential creditors & liquidator's remuneration

= ₹ 25,00,000 – ₹ 25,000 – ₹ 10,00,000 – ₹ 75,000 – ₹ 50,000 – ₹ 2,250 = ₹ 13,47,750.

Liquidator's remuneration on payment to unsecured creditors = 3/103 x ₹ 13,47,750 = ₹ 39,255
